

LONG PRAIRIE WATER DISTRICT
PO Box 331 • Tillamook, OR 97141 • (503)842-2158

June 2016

Dear Long Prairie Water Consumer,

We are pleased to furnish you with the following information about the water quality and services we provide to our members.

Long Prairie Water District purchases our water from the City of Tillamook as a finished product. The City does all of the filtration and treatment. LPWD collects monthly samples for Coliform Bacteria levels, yearly samples for Disinfection By-Products and Lead & Copper samples every 3 years. Enclosed is the 2015 Annual Water Quality Report from the Tillamook Water Department containing contaminant test results and other important information regarding your drinking water.

Water delivery to the District enters our system from two tap points, one is located near the blinker light at Highway 101 and Long Prairie Road, and the other is near Clemens Corner on Brickyard Road.

Oregon Drinking Water Services has identified criteria for determining whether a community public water system should be considered to have outstanding performance. This designation is given at the completion of a water system survey (formerly referred to as a sanitary survey). A water system survey is an on-site review of a system's sources, treatment, storage facilities, distribution system, operation and maintenance procedures, monitoring, and management, for the purpose of evaluating the system's capability of providing safe water to the public. Systems that are designated outstanding performers will have their water system survey frequency reduced from every 3 years to every 5 years. We are happy to inform you that your LPWD water system has been named an outstanding performer with the completion of our last survey.

Our Lead and Copper sampling is on a three-year cycle and they were done in 2015. There were no significant amounts of Lead or Copper in the 10 samples tested. These will be due again in 2018.

We invite you to attend our monthly board meetings, held the second Monday of each month (unless exception is approved by the Board) at 5:15 p.m. in the Port of Tillamook Bay Board Room, 6108 Hangar Rd. at the Port Offices.

Your Board members are:

Dave Plawman	842-4648
Janell Werner, Secretary-Treasurer	842-5778
Gary Petersen	842-5360
Joanna Stelzig, Board President	815-8409
Rick Stelzig	812-1040

Our System Advisor is:

Harry Tarr	842-4978
------------	----------

Our Water System Operator is:

Ken and Nonda Zwald LLC	842-1515
-------------------------	----------

Our bookkeeper is:

Barbara Aufdermauer	815-1162
---------------------	----------

Sincerely,

LONG PRAIRIE WATER DISTRICT BOARD OF DIRECTORS

TEST RESULTS						
Contaminant	Violation Y/N	Level Detected	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Inorganic Contaminants						
Copper Aug 2015	N	ND	ppm (parts per million)	1.3	Action Level 1.3	Corrosion of household plumbing systems; erosion of natural deposits; leaching from wood preservatives
Lead Aug 2015	N	ND	ppb (parts per billion)	ND	Action Level 15	Corrosion of household plumbing systems, erosion of natural deposits
Nitrate Year 2015	N		ppm	10	10	Runoff from fertilizer use; leaching from septic tanks, sewage; erosion of natural deposits
Killam/Fawcett	N	.080		10	10	
Well 2	N	1.79		10	10	
Well 3	N	1.85		10	10	
Total Coliform	N	ND	present/ not present	0	0	Breaks in pipe, pipeline replacement construction
